

## **Adisseo announces an agreement with Verus Animal Nutrition to expand their presence in Ontario.**

Effective October 1<sup>st</sup>, 2013 Verus Animal Nutrition will expand its coverage of Adisseo products to specific accounts in the province of Ontario. This expansion represents an addition to the existing agreement between Adisseo and Verus Animal Nutrition and Verus's current presence in the Western Canadian market "*Verus has successfully represented Adisseo in Western Canada since 2009 and is a proven partner delivering the excellent technical support our customers have come to know and expect, and we are excited to have them expand their representation of our Adisseo product line in Ontario*" says André Gilbert, Adisseo Canada Country Manager. This new agreement exemplifies the commitment that Adisseo has to provide superior customer service, technical support, and nutrition solutions to the Canadian livestock producers and feed manufacturers.

### ***About Adisseo***

The Adisseo Group is one of the world's largest manufacturers of nutritional solutions for animals. It designs, manufactures and markets four families of animal feed additives: Rhodimet<sup>®</sup>, an essential amino acid for monogastric animals (poultry, pigs, etc.); MetaSmart<sup>®</sup> and Smartamine<sup>®</sup>, a unique methionine range for ruminants; Rovabio<sup>®</sup>, a multi-enzyme speciality which improves the digestibility of raw materials; and Microvit<sup>®</sup>, a complete range of vitamins. Worldwide, Adisseo Group employs 1,750 people, has five research and development divisions and seven production facilities in France, Spain and China. Adisseo serves, through its global distribution network, more than 2,500 clients in more than a hundred countries.
